## Mound & Home Plate Clay

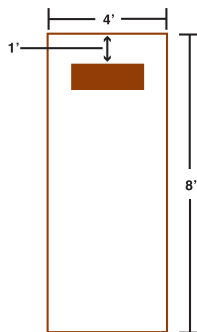

### Baseball Mound Renovation

1. Excavate table and landing areas to three to four inch depth.
2. Apply Dura Pitch™ Mound Clay.
3. Add water to achieve desired consistency.
4. Work moisture into clay and compact until firm.

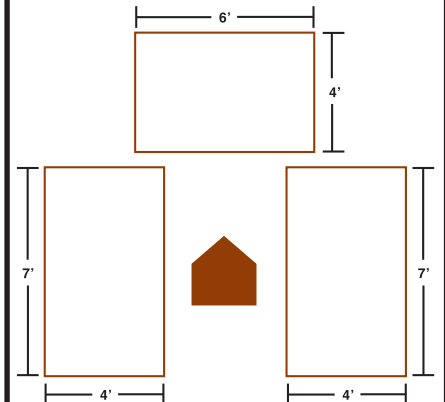

### Softball Pitching Area

1. Excavate one foot behind and 10 feet on front of pitching rubber, approximately four feet wide.
2. Apply Dura Pitch™ Mound Clay.
3. Add water to achieve desired consistency.
4. Work moisture into clay and compact until firm.

### Home Plate Area

1. **Batters boxes:** Excavate four feet by eight feet area, five inches deep. **Catchers box:** Excavate four feet by six feet area, four inches deep.
3. Apply Dura Pitch™ Mound Clay.
4. Add water to achieve desired consistency.
5. Work moisture into clay and compact until firm.
